StudySmart AI: App Features

Version 1 Features

Feature	Why it matters
Homework and Assignment Tracker	It gives students one place to see every assignment, test, and deadline, and it supplies the dates the study planner needs.
AI Study Planner	It turns a student's deadlines and available time into a clear schedule, so they know what to study first and avoid last-minute cramming.
Step-by-Step AI Tutor	It explains difficult topics in simple language and walks through problems one step at a time, which is the clearest way the app improves understanding.
AI Practice Quizzes	They let students test themselves on their own notes or chosen topics, which helps them prepare for exams and find what they still need to review.
Flashcards and Study Notes	They turn class material into short, reviewable pieces, making it easy to revise in quick sessions.
Account and Student Profile	It saves each student's assignments, notes, and plans across devices, and lets the app tailor its help to their grade level.
Safety and Privacy Controls	Because many users are minors, age-appropriate content filters and strong privacy protections are needed from the start to build trust and meet child privacy laws.

Future Features

Feature	What it adds
Progress Reports	Summaries of quiz scores, completed work, and study time that show students how they are improving.
Strength and Weakness Recommendations	Personalized suggestions on what to review next, based on a student's performance over time.
Voice-Based Tutoring	Spoken explanations and conversations for students who learn better by listening and talking.
Shared Study Rooms	Spaces where friends can study together and share notes.
Group Quizzes	Friendly competitions or team quizzes that make review more social and motivating.
Parent and Teacher Dashboard	A privacy-conscious view of assignments and progress for the adults supporting the student.
Photo Scan for Homework and Notes	The ability to snap a picture of a textbook page, worksheet, or handwritten notes and turn it into quizzes, flashcards, or tutor questions.
Streaks and Rewards	Study streaks, badges, and goals that encourage consistent habits.
