User Personas-StudySmart AI

Persona 1: The Busy High School Student

Emily, 16

Occupation: High school student

Goals

- Improve her grades.
- Finish homework on time.
- Prepare for exams without cramming.

Challenges

Emily has several assignments and tests each week. She sometimes feels overwhelmed and does not know which subject to study first.

How StudySmart AI would help

The AI Study Planner would organize her assignments and create a study schedule. Practice quizzes would help her prepare for tests.

Quote

“I have so much homework, and I never know what I should work on first.”

Persona 2: The Student Who Struggles With Difficult Subjects

Marcus, 15

Occupation: High school student

Goals

- Understand difficult lessons.
- Improve his test scores.
- Become more independent when studying.

Challenges

Marcus sometimes gets confused in math and science. He may feel uncomfortable asking questions in class and needs explanations that are easier to understand.

How StudySmart AI would help

The AI Tutor would explain concepts step by step using simple language. Flashcards and practice quizzes would help him review what he learned.

Quote

“I understand the lesson better when someone explains it in a different way.”

Persona 3: The Busy College Student

Sofia, 20

Occupation: College student

Goals

- Balance multiple college courses.
- Keep track of deadlines.
- Study efficiently while managing other responsibilities.

Challenges

Sofia has several projects, readings, and exams to manage. She struggles to balance her schoolwork and personal responsibilities without missing deadlines.

How StudySmart AI would help

The Assignment Tracker would keep her deadlines organized, while the AI Study Planner would help her divide large projects into smaller tasks and plan her study time.

Quote

“I need a better way to stay organized so I can get everything done on time.”
